

Introducing the QP21 + QP25 Ear Mount Compressors

Primary applications include buses, transport refrigeration, specialty vehicles, military, and agriculture.

The QP21 Ear Mount (QP21EM) and QP25 Ear Mount (QP25EM) are the latest innovations in our product line up. The QP21EM and QP25EM are engineered with a patented piston and durable steel shoe, these enhanced versions offer unparalleled durability and increased mounting options. The QP25EM also offers a higher displacement to meet needs for cooling and fit.

*Both the QP21 and QP25 are still available as direct mount compressors as well.

Backed by validation at the **Climatic Center for Innovation & Research (CCIR)**, TCCI compressors are tested under realistic duty cycles and ambient extremes—reducing development risk and accelerating time-to-market. **With multiple global manufacturing locations and regional engineering support**, TCCI ensures total delivered value with extensive system-level validation, tested integration support, and long-term field-tested reliability with every unit.

Model	QP21EM	QP25EM
Type	Swash Plate	Swash Plate
Mount Type	Ear Mount	Ear Mount
Refrigerant	R-134a, 404a, 1234yf	R-134a, 404a, 1234yf
Lubricant	PAG, POE	PAG, POE
Voltage	DC 12/24 V	DC 12/24 V
Displacement	210cc	250cc
